B3. Participants can begin the process of participation in the festival once announced the opening of the registration period by the organization. The closing of the registration period will be set by the organization being announced well in advance in the official media of the festival.

B4. The participation process begins by sending the organization a registration form duly completed for each work / campaign that the participant wishes to register. To do this, the participant must download the registration form available in the PARTICIPATE section of the website of the contest and send it duly completed, stamped and signed to the email comunicacion@publifestival.com with a copy to participantes@publifestival.com.

B5. Once this registration form has been received and validated, the organization will contact the participant to prepare the upload of the contest material to an FTP account, for which access codes will be provided. Any doubt arising in this process will be addressed by the organization.

B6. Each participant can register the pieces / works that they want without quantity limit, although there is a limit of works / categories in which they can be awarded, specified in the following point of these bases.

B7. The same participant may be selected for a MAXIMUM OF 12 PRIZES in total in the same edition of the festival. If, after evaluation of the jury, a participant obtains sufficient score to be the winner of a higher amount of prizes, the organization will select to award exclusively the 12 pieces / categories valued with the highest score.

B8. The festival will not accept entries that do not include the registration form or include it without their signature and corresponding stamp. By signing this document the participant confirms that he / she has read and accepts the bases of participation of the festival.

B9. In case of concurring with several works / pieces to contest, it is obligatory to send a signed and sealed inscription sheet for each work / piece presented, indicating in each one of them the categories by which that piece competes.

B10. The participant competes with the totality of the sum of the categories indicated in each registration form. Thus, in the example of an agency presenting 3 pages of registration with 4 categories each indicated, it competes in a contest with 12 categories.

B11. The material presented at the festival may be conceived and made in any international language, if possible subtitled in Spanish.

B12. The material registered to the festival must have been published before the date of the festival, or have the express authorization of the client for viewing if it is a project that has not seen the light date.

B13. The organization may claim the corresponding certificates or vouchers for issuance or publication in the media of a campaign or advertising piece deserving of a prize.

B21. In case of breach of any aspect of these bases, the organization can use the signed registration form where the participant accepts the bases if he considers it appropriate to undertake a legal procedure.

C. AWARDING, ACCREDITATION PROCESS

C1. The candidatures will be evaluated by the organization and a jury composed of different professionals in the advertising, communication and marketing sector, giving the possibility of including **professionals from the social sector in any field.**

C2. In the event that a member of the jury has some type of direct or indirect relationship with a participant or brand announced in a job, will not be able to assess and rate such work.

C3. The organization sends nominations to the jury anonymously to achieve maximum impartiality in the evaluations. In this way, the jury does not know the creators of the works they value, achieving a clean examination of any influence and based solely on the quality of the project submitted to the contest.

C4. To favor the anonymous valuation indicated in the previous point, the participant will send their works free of any type of identification or logo that relates to the piece with its creator.

C5. The organization reserves the right to make a selection prior to the evaluation of the jury, filtering those nominations that do not exceed the minimum quality criteria established by the festival. Likewise, the organization reserves the right to withdraw from the contest all material that is offensive, defective, or does not represent the values and spirit of the festival.

C6. The organization reserves the right, on its own initiative or at the proposal of the Jury, to add or leave certain categories of those initially established for the contest deserted.

C7. The jury and the organization rate concepts such as creativity, efficiency, message, originality, design, production, strategy, social message, etc. in each project valued. The score of each project in each of these technical concepts serves the organization to designate the awards given by each category. Thus, in the example that a piece registered in the SPOT TV category gets a high rating in the EFECTIVA concept, it will be able to get the BEST EFECTIVENESS IN SPOT TV award, always achieving exclusivity in that prize.

C8. Given the aforementioned assumption, it is completely compatible that several pieces initially registered in the same category can be awarded in different modalities of the same according to the most punctuated technical concept in each case.

C9. The ties and special situations will be resolved with the vote of quality of the presidency of the jury and the organization.

C10. The selection of prizes and special mentions, as well as awards and honorary appointments is reserved exclusively for the organization, being responsible for voting in special cases.

C11. Failed the prizes by the jury, the winners will be deposited before notary.

C12. The prize list will be confidential until the day of the awards ceremony. The winners will only be informed of their awards, never of the prizes of the other participants.

C13. After the verdict of the jury, the organization will inform each participant of the result of their candidacy. The contestants that have been winners will start from that moment a very protocolized process of attendance and participation in the Gala.

C14. After the initial free registration, only the prize-winning participants will have to pay a fee for the accreditation rights to the festival, leaving the non-awarded ones exempt from any financial outlay.

C15. The accreditation price established in each case is:

- **INDIVIDUAL YOUNG TALENT – 195€** for each awarded work / category.

- **GROUP YOUNG TALENT – 295€** for each awarded work / category.

- **AGENCY/ADVERTISER GENERAL CATEGORY – 695€** for each awarded work / category.

- **AGENCY/ADVERTISER CAMPAIGN CATEGORY – 995€** for each awarded work / category.

- **AGENCY/ADVERTISER INTEGRATED CAMPAIGN CATEGORY – 1995€** for each awarded work / category.

C16. The winner is obliged to pay their accreditation fees within the period indicated by the organization in the communication of their awards through the means of payment provided in the protocol.

C17. Each piece registered to the festival can be awarded in as many categories as indicated by the participant in the registration form. In the event that the same piece is awarded in several categories, the winner must pay an accreditation for each of the awarded categories, not being able to change, decline or reject any of them after the verdict of the jury and the communication of their prizes.

C18. In the event that a winner wishes to cancel his participation in the contest after the deliberation of the jury and the communication of his prizes, he is equally obliged to pay for his accreditations. In case of breach of this point the organization reserves the right to request payment via legal, as well as take legal action against the participant / entity for damages to the organization.

C19. In the event that two different participants attend a contest with the same work, in case of winning work, each participant must pay an accreditation independently. That is, it will not be accepted that a prize is shared between two companies, agencies or advertisers. Only young talents can share an award as long as they have been registered in the group section.

C20. The winner can request one or several replicas of his statue if he wishes to share his prizes with clients or partners. This service has a cost of € 195 for each replica and the delivery will be made in the same awards ceremony whenever it is requested within the period specified by the organization for it. If requested later than this deadline, the costs of sending the replicas will be borne by the applicant and never by the organization.

D. PROTOCOL, PROMOTION AND ASSISTANCE TO THE GALA

D1. The winner can make self-promotion of their award, as well as the winning status of their agency or producer from the moment of crediting, never before. The organization of the festival will authorize the use of its brand and badges to the winner for said promotion.

D2. In the event that a winner declines their participation or is disqualified from the festival due to breach of the rules, they will be prohibited from self-promotion of this prize, and the organization may take legal action to avoid it if it considers it appropriate.

D3. From the moment of communication of the prize to a winner, the winner will attend and provide the organization with the data required for the protocol of the gala within the established deadlines.

D4. The accreditation includes the attendance for each award of 10 guests to the Gala, as well as associated acts indicated in the protocol that will facilitate the organization during the accreditation process. The winner must provide the organization with his list of guests within the period specified in the notification of his prize.

D5. Closed the aforementioned deadline, the capacity can be completed, so, if a winner is delayed in sending your list of guests, the organization may reduce the availability of 10 invitations to a smaller number for security reasons, capacity and protocol.

D6. In case of needing it, the winner can request extra invitations to the 10 that correspond to him. The organization can provide these extra invitations only in the case of available capacity.

D7. If the winning piece is an audiovisual that exceeds 25 seconds, the organization will ask the winner for a summary of their work of no more than 25 seconds for viewing at the gala, thus promoting agility and good development of it. If the winner does not send this summary within the period indicated in the accreditation process, the organization will have the power to edit and summarize the piece for its screening at the gala.

D8. Regardless of the people who take the stage, only one person per agency / entity may give a speech of gratitude that may not exceed in any case the 20 seconds in duration for greater agility of the Gala.

D9. Under no circumstances will the organization be responsible for travel expenses, lodging, subsistence allowances or any disbursement related to attending the festival. Although, the organization will duly inform the winner if there are recommended hotels with special rates for the festival or exclusive travel discounts.

D10. The material and documentation presented will become part of the festival archive. The participants authorize the exhibition in public or private of the presented pieces, as well as their edition, distribution or sale for promotional purposes of the festival.

D11. The decision not to reward a specific piece or advertising campaign in the festival, for the reasons and reasons set forth in these rules, will be based solely and exclusively on the opinion of the jury or the organization of the festival. In this sense, the participant may not appeal this decision or, in any case, demand responsibility or compensation from the festival organization.

The organization of the festival will award each winner for each prize obtained a score for their position in the International Ranking of the Best Advertising Agencies published on the festival website.
